

Feedback 2020-21

Analysis and Action taken Report

Feedback is an essential element of teaching-learning process. It is used to assess and improve teaching-learning process and overall campus environment. College collects online Feedback from different stake holders with the help of Google form specifically designed with structured questionnaire framed by the Feedback Committee and approved by the IQAC. Stake holders having freedom and liberty to submit their suggestions, grievances and problems through feedback form. For the year 2020-21 Five types of feedback i.e. Students Feedback about Curriculum; Teachers Feedback; Institutional Feedback, Alumni Feedback and Parents Feedback collected, analyzed and action taken report prepared accordingly.

For the academic year 2020-21, Institutional Feedback is sought from **253** students and Feedback about Curriculum is sought from **243** students. Questions were asked regarding teaching-learning, library and campus environment. This feedback helps to understand the problems of students, syllabus coverage, effectiveness of teaching, etc. The analysis of the students' feedback clearly depicts that they are well satisfied with the curriculum prescribed for their class as well as the completion of curriculum in the class by teacher. The students highly appreciated the academic related infrastructural facilities such as library, laboratories and playground. Majority of the students discovered the basic amenities in the college. Work culture in the college is found impressive to the almost 86% students where as academic discipline in the college is found impressive to the almost 84% students. Due to Covid 19 pandemic teaching and learning process was shifted in the online mode. Almost 40% students not found comfortable themselves with this changing environment. Regarding availability of

computers for academic use- it is observed that almost 30 % students feels that there is no adequate number of availability of computers for academic use. More negative responses also found regarding the canteen facility. Almost 50% of students are not happy regarding canteen facility.

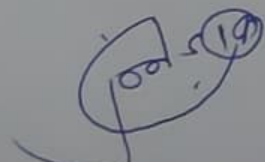

Feedback on various aspects of curriculum as well as infrastructure is sought from **35** faculty members of Pratibha Niketan College. The analysis of teachers' feedback reflects the adequacy and availability of teaching-learning facilities in the college. The feedback from teacher revealed the validity and adequacy of syllabus. Most of teachers agreed with the availability of reference books to deliver the curriculum. Teachers also found happy regarding the healthy environment for teaching and research. Majority of the teachers agreed that they have the freedom to adopt new teaching strategies for curriculum delivery. However, some of the faculty members are not satisfied about the cleanliness and hygiene of classrooms and washrooms. They also feel that lack of facility related to internet, wifi connections.

With the collaboration of Alumni association feedback from **22** alumni is obtained by the college. These peoples found engage in various types of job, business and other occupation. Most of the alumni feels that college has played key role in their entire development. The feedback of the Students' parents is important for the development and improvement in infrastructure and work culture. College received feedback of **176** parents. Different questions were asked to the parents regarding admission procedure, infrastructure, work culture, online teaching, covid related safety measures etc. It is found that most of the parents gave good remarks. Feedback reflects their satisfaction about the education and facilities given to their children's in this College. Parents expect one common helpline number for students for completing procedures if any .

Above all issues are taken into consideration in the meeting of feedback analysis committee. Discussion is done with principal and it is decided that number of computers in the library should be increased for the use of students. It is also determined that more attention should be given on cleanliness in the canteen, availability of food items and maintenance of canteen furniture. However, some of the faculty members and students are not satisfied about the cleanliness and hygiene of classrooms and washrooms. Therefore it is decided that an appointment of one college Clerk should be done to monitor these activities. Almost 40% students found not comfortable in the online teaching learning mode hence it is decided that teaching learning activities should be continued with blended mode.

22 responses

No

No suggestions

There should be more use of practical or experiential learning.

NOT AT ALL

Need a Special computer LAB for Commerce Students of UG AND PG.

Improvement in ICT Tools

Some Mathematics books are not available in library so try to arrange those books.

No We are update our improvement every stages

Give more focus on practical learning than theory .. overall experience with the college is great

Water supply and cleanliness for lady's staff washroom to be provided.

In our college lack of facility related to internet, wifi connection as well as not maintain the cleaning properly..

No

Enhancement of laboratory facilities

It was good teaching through online platform and minimizing risks during the pandemic but the classes should be offline as we can personally concentrate on students

Because of COVID-19 Students gets laziness about attend the lecture so please guide us for that problem. thank you
